Please reconsider your unfortunate decision to send Uber a stop and desist order. My experience with them has been overwhelmingly positive in multiple cities and far superior to standard taxi service.

Please do not limit transportation options in South Carolina. Stopping Uber would be bad for tourism in our state.

Why would you take away a service that encourages taking a cab instead of drinking and driving.

C'mon guys, get out of the pockets of the substandard local cab companies, and get into the 21st century. Your stance on Uber hurts SC citizens and demonstrates to the rest of the country why we remain a backward state. This appears to be a decision you made because you have the authority and want to show you can. Ride sharing is a 21st century reality. You can fight it like SC fought desegregation or you can be open minded and get with the program.

To whom it may concern,

I'm writing to tell you how upset I am to hear about the actions that have been taken against Uber.

There is a reason Uber has been so successful, and it's not because taxis are awesome. Ubers success speaks to the publics opinion of the taxi cab companies in SC, and if you get rid of Uber you will be putting thousands of people out of the option they like best.

I will not take taxis any more because of the outstanding experiences I've had with Uber. Please don't take this right away from me.

Sincerely,
Alexandra Cole
